Leonit Kuleta

7+ YEARS **15+** PRODUCTS **3M+** INSTALLS

PRODUCT ENGINEER

leonitkuleta@gmail.com | +383 45 476 940 | Pristina, Kosovo · CET | leonitkuleta.com

Product engineer with **7+ years shipping software that reaches real users** — payments infrastructure at Teya, an enterprise care microservice owned end to end at Solaborate, and a React Native app grown from zero to 3M+ installs as sole engineer and product owner. Today I run my own independent practice, shipping four live iOS products end to end — architecture, backend, UI, and release. I work across the full stack, from databases and infrastructure to mobile and web, and I'm most effective owning a product from first line of code to the people using it.

EXPERIENCE

Product Engineer — STRYVE: Workout Plans

Health & Fitness · iOS · apps.apple.com/app/id6759881538

- Built and shipped a training app with **90+ structured plans and 750+ exercises**, a custom workout builder, and guided session timers — full ownership of data model, backend, and UI.
- Own the release pipeline end to end: Firestore schema, subscription logic, App Store submission, and iteration from real user feedback.

Product Engineer — Foveo: Branch Ops

Business · iOS · apps.apple.com/app/id6763596325

- Built daily operations software for multi-location businesses — income and expense tracking, team tasks, shift notes, and role-based access.

Product Engineer — ReceiptScan: Warranty Tracker

Utility · iOS · apps.apple.com/app/id6757991971

- Built receipt capture, warranty tracking, and return-deadline reminders — from database design through App Store launch.

Product Engineer — Elite Habits: Routine Builder

Productivity · iOS · apps.apple.com/app/id6748255940

- Built a habit and routine system with streaks and progress tracking, designed around identity-based habit formation rather than one-off reminders.

Product Engineer & Engineering Manager

02/2025 — Present

Freelance Client Work · Zurich, Switzerland

- Shipped multiple client products across React, React Native, Node.js, and NestJS — leading technical execution and small engineering teams at once.
- Defined scope, set coding standards, and stayed the primary hands-on engineer throughout each build.

Mobile Product Engineer

2023 — 01/2024

Xogito Inc. · New York, USA

- Shipped production React Native features across several consumer apps, working directly with product and design.

Software Engineer — Payments Platform

01/2022 — 02/2023

Teya Inc. · Prague, Czech Republic

- Built and maintained services on a **high-reliability fintech platform** (Node.js, Express, Koa) handling real financial transactions at scale.

Platform Engineer — Virtual Care

10/2020 — 01/2022

Solaborate · Pristina, Kosovo

- Owned the **Physical Therapy microservice end to end** (NestJS, MongoDB) inside a larger enterprise virtual care platform.

Lead Product Engineer — Language Learning App

09/2018 — 10/2020

Freelance · Zurich, Switzerland

- Built a React Native app **from zero to 3M+ installs** as lead engineer, product owner, and team lead for a small cross-functional team.

TECHNICAL

BACKEND & DATA

Node.js · NestJS · Express · Koa · TypeScript · REST APIs · PostgreSQL · MongoDB · Firestore

INFRASTRUCTURE

AWS · Docker · CI/CD · Firebase · EAS · App Store Connect

FRONTEND & MOBILE

React Native · Expo · React · Next.js · Zustand · Redux

PRODUCT

0→1 Building · Feature Scoping · Roadmapping · Subscriptions · ASO

AI TOOLING

Claude · GPT · Coding Agents · GitHub Copilot

HOBBIES & INTERESTS

Skiing · Football · Walking · Table Tennis · Chess

EDUCATION

BSc. Software Engineering 2024
Riinvest College

Advanced JavaScript Training 2019
